

If your child struggles to learn or read, you want your answers. Some would suggest that you blame the school, the teachers, or curriculum. Others would have to blame your child! (He's not motivated, she can't understand.)

STOP! Successful learning requires strong underlying skills. The majority of learning struggles are due to weakness in underlying skills.

The good news? Skills can be strengthened!

FINALLY GET YOUR QUESTIONS ANSWERED.

Rank each statement according to this guide

Compare to others the same age and gender, this behavior occurs ___ in my son / daughter.

0) less often OR doesn't apply to the age of the person

1) at about the same frequency

2) slightly more

3) considerably more

How To Understand Your Scores

Total each column at the bottom. These represent the indicator score for 6 key skill areas: **Attention (AT)**, **Processing Speed (PS)**, **Auditory Processing (AP)**, **Memory (ME)**, **Visual Processing (VP)**, and **Logic and Reasoning (LR)**.

A score of:

6 or below suggests normal range in that skill set

7-9 Indicates a possible weakness in those skills

10 or 11 suggests a likely weakness

12 or above suggests a significant weakness

Like most parents, you know the symptoms: struggling in school, frustration, repeated failure, or difficulty. Now you know there is a likely **ROOT CAUSE** of the problem. If this worksheet suggests skill deficiencies, call The Woodlands Learning Center today. A licensed provider will review your scores and if you desire, schedule your **FREE Comprehensive Evaluation 713-589-7102**.
